We are confident about our Pegasystems PEGACPLSA88V1 braindumps tested by our certified experts who have great reputation in IT certification, That's also the reason we strongly recommend that you choose our Pegasystems PEGACPLSA88V1 exam engine.

With our simplified information, you [New AD0-E307 Exam Question](#) are able to study efficiently, An Exclusive 94.1% Success Rate...

NEW QUESTION: 1A critical system audit shows that the payroll system is not meeting security policy due to missing OS security patches. Upon further review, it appears that the system is not being patched at all. The vendor states that the system is only supported on the current OS patch level. Which of the following compensating controls should be used to mitigate the vulnerability of missing OS patches on this system?**A.** Monitor the system's security log for unauthorized access to the payroll application**B.** Isolate the system on a secure network to limit its contact with other systems**C.** Implement an application layer firewall to protect the payroll system interface**D.** Perform reconciliation of all payroll transactions on a daily basis
Answer: B**Explanation:**ExplanationThe payroll system is not meeting security policy due to missing OS security patches. We cannot apply the patches to the system because the vendor states that the system is only supported on the current OS patch level. Therefore, we need another way of securing the system. We can improve the security of the system and the other systems on the network by isolating the payroll system on a secure network to limit its contact with other systems. This will reduce the likelihood of a malicious user accessing the payroll system and limit any damage to other systems if the payroll system is attacked.

NEW QUESTION: 2You are managing Oracle Database 11g with an ASM storage with high redundancy. The following command was issued to drop the disks from the dga disk group after five hours:ALTER DISKGROUP dga OFFLINE DISKS IN FAILGROUP f2 DROP AFTER 5H;Which statement is true in this scenario?**A.** All the disks in the dga disk group would be OFFLINE and the DISK_REPAIR_TIME disk attribute would be set to 5 hours.**B.** All the disks in the dga disk group in failure group f2 would be OFFLINE and the DISK_REPAIR_TIME disk attribute would be set to 5 hours.**C.** It starts the ASM fast mirror resync.**D.** It drops all disk paths from the dga disk group.**Answer: B****Explanation:**Explanation/Reference:Explanation:

NEW QUESTION: 3Most experienced project managers know that:**A.** there is only one way to manage projects successfully.**B.** every project requires the use of all processes in the PMBOK® Guide.**C.** project management techniques are risk free.**D.** there is no single way to manage a

project.**Answer: D**

NEW QUESTION: 4"UC wants to default information on the Quote Line from a Product field. How should this information be transferred?**A.** Create a Workflow Rule that stores the Product field's value in the Quote Line field.**B.** Create a cross-object formula field that stores the Product Field's value in the Quote Line field**C.** Create Price Rule that stores the Product field's value in the Quote Line field.**D.** Create two fields with the same API name and type on the Product Quote Line."**Answer: D**
