NEW QUESTION: 4Identify the two valid EPM Workspace features that designers incorporate into Books to enable viewers perform tasks.**A.** Email inks**B.** Prompt**C.** User POV**D.** XML, HTML & PDF**E.** Related Content**Answer: B,C****Explanation:**A: Some reports are designed with prompts, which are displayed when you view the reports or books containing the reports. You respond to prompts and provide requested information by selecting members from prompt lists. You can edit prompts manually. If prompts contain alias names, you convert them to member names.B: Dimensions often contain members that you may never access. Setting up the user POV enables you to create a choices list for any dimension in a specified data source, where only the members in the choices list are displayed when the dimension is accessed from the user POV. When a report is added to a book, the dimensions that are on the user POV in the report definitions are applied to the book POV. Members on the book POV default to the user POV in the Book Editor.Note: Books are created, edited, and saved in EPM Workspace.Reference: Oracle Hyperion Financial Reporting, User's Guide,Setting Up the User POV for Financial Reporting Documents
