**NEW QUESTION: 1** Which of the following steps will you take to ensure that field controls can be neither edited nor deleted?  
**A.** Select the Protect option in the View tab and check the Protection check box.  
**B.** Select the Protect option in the Insert tab and check the Protection check box.  
**C.** Go to Protect Document in the Tools tab.  
**D.** Go to the Properties option in the Developer tab and check both options of Locking.  
**Answer: D**  
**Explanation:** Take the following steps to protect control fields in a form: Select the control that you want to protect. Select the Ribbon's Developer tab. Click the Properties option in the Controls group. The Content Control Properties dialog box will open. In the Content Control Properties dialog box, check both options given in the Locking section, i.e., Content Control cannot be deleted and Contents cannot be edited. Click the OK button. After doing the above steps, whenever you try to edit or delete control fields, you will get an error message in the status bar of the form. Answer options C, A, and D are incorrect. These are not valid steps to protect the control fields.
