So do not hesitate and hurry to buy our study materials, After years of unremitting efforts, our C\_ARCON\_2404 exam materials and services have received recognition and praises by the vast number of customers.

Most electronics can support this version.

**NEW QUESTION: 1** You recently migrated from System Center Configuration Manager 2007 to System Center 2012 Configuration Manager. Your network contains a client computer that runs the 64-bit version of Windows 7 and the 32-bit version of Windows 7. Some client computers have the Microsoft Application Virtualization (App-V) client installed. You have an Application named App1. You have a 64-bit version of App1, a 32-bit version of App1, and a virtual version of App1. You need to deploy the Application to all of the client computers. The solution must minimize the amount of administrative effort. What should you do? **A.** Create a new Application that has three different deployment types and create a target collection for each of the deployment types. **B.** Create a new package for each version of App1. **C.** Create a new Application that has three different deployment types and configure global conditions for each of the deployment types. **D.** Create a new Application for each version of App1. **Answer: C**  
Explanation: Explanation/Reference: You need to make a new package containing all the different versions as shown in the figure below

**NEW QUESTION: 2** In a Veeam Backup & Replication simple deployment scenario, the Veeam Backup Server performs the following roles: -It functions as a management point, coordinates all jobs, controls their scheduling and performs other administrative activities. -It is used as the default backup repository. -It is used as a mount server and guest interaction proxy. On which drive is the Default Backup Repository stored? **A.** The largest capacity drive of the Veeam Backup Server **B.** The setup wizard prompts on which drive to place the Default Backup Repository during installation of Veeam Backup & Replication **C.** The drive of the Veeam Backup Server with the greatest amount of free disk space at the moment of installation **D.** Always the C: drive of the Veeam Backup Server **E.** The datastore where the source VM is located **Answer: D**

**NEW QUESTION: 3** Which statement about Business Cases is TRUE? **A.** Business Cases should focus on only the non-financial business impacts of the proposed project to secure proper high-level management support **B.** Business Cases should focus on both the financial and non-financial impacts of the proposed project or service **C.** Business cases should only focus on how the proposed project can lower costs and improve customer satisfaction, listing measures and targets **D.** Business Cases should focus on only the financial impacts of the proposed project to secure support and funding **Answer: B**
