A. Referential integrity constraint cannot be set on the invisible column.
B. The DESCRIBE commands in SQL *Plus will not display the invisible column in the output.
C. The %ROWTYPE attribute declarations in PL/SQL to access a row will not display the invisible column in the output.
D. The invisible column cannot be made visible and can only be marked as unused.
E. A primary key constraint can be added on the invisible column.
Answer: B,C,E
Explanation: Explanation/Reference: Explanation: AB: You can make individual table columns invisible. Any generic access of a table does not show the invisible columns in the table. For example, the following operations do not display invisible columns in the output: * SELECT * FROM statements in SQL * DESCRIBE commands in SQL * Plus * %ROWTYPE attribute declarations in PL/SQL * Describes in Oracle Call Interface (OCI) Incorrect: Not D: You can make invisible columns visible. You can make a column invisible during table creation or when you add a column to a table, and you can later alter the table to make the same column visible. References:
