72201X exam materials can help you stand out in the fierce competition, It is totally possible.

NEW QUESTION: 1 Your network contains an Active Directory domain named contoso.com. The domain contains multiple sites.You plan to deploy DirectAccess.The network security policy states that when client computers connect to the corporate network from the Internet, all of the traffic destined for the Internet must be routed through the corporate network.You need to recommend a solution for the planned DirectAccess deployment that meets the security policy requirement.Solution: You enable force tunneling.Does this meet the goal?**A.** No**B.** Yes**Answer: B**Explanation:DirectAccess allows connectivity to organizational network resources without the need for traditional virtual private network (VPN) connections.DirectAccess allows remote users to securely access internal network file shares, Web sites, and applications without connecting to a virtual private network (VPN). An internal network is also known as a private network or intranet. DirectAccess establishes bidirectional connectivity with an internal network every time a DirectAccess-enabled computer connects to the Internet, even before the user logs on. Users never have to think about connecting to the internal network and IT administrators can manage remote computers outside the office, even when the computers are not connected to the VPN.Reference: DirectAccess Overview
https://technet.microsoft.com/en-us/library/dd759144.aspx

NEW QUESTION: 2 What are two primary differences between an Elastic IP address and a Public IP address assignment?(Choosetwo.)**A.** A Public IP address assignment is associated with an AWS account.**B.** A Public IP address assignment could manually be attached and detached from an instance.**C.** An Elastic IP address has a cost associated with it.**D.** An Elastic IP address assignment is associated with an AWS account.**E.** An Elastic IP address assignment will be persistent during the Stop/Start process of an instance while a Public IP address would be dynamically reassigned.**Answer: B,D**Explanation:ExplanationIt can be assigned to any network interface, which can be attached or detached from an instance.

NEW QUESTION: 3 Project ScenarioCalendar Project (Note: The companies and people within the scenario are fictional.) There has been a reduction in fie number of orders at the MNO Manufacturing Company due in part to the increased marketing activities of its competitors. To help counter this, the company has decided to create a promotional calendar for next year for all its current and prospective customers. The end product of this project will be a prepared calendar pack, ready for printing. The design of the calendar will be similar to one sent out previously, and must reflect the company image as described in the existing corporate branding standards. Another project is currently producing a new company logo when is to be printed on each page of the promotional calendar. The prepared calendar pack will consist of:* Design for each month - correctly showing at public holidays and new company logo* Selected photographs- 12 professionally-produced photographs, showing different members of staff* Selected paper and selected envelope - for printing and mailing the calendar* Chosen label design - a competition to design a label will be held as part of this project* List of customers - names and addresses of customers to whom the calendar will be sent.The project is currently

in initiation and will have two further stages:Stage 2 will include tie activities to:* Create the customer fast using information from the Accounts and Marketing departments* Confirm compliance with the Data Protection Legislation* Create a design for each month - this will be done by the internal creative team* Select and appoint a professional photographer* Gather photograph design ideas from previous project and agree photographic session schedule* Prepare a production cost forecast* Select paper and envelope.Stage 3 will include the activities to:* Produce and select tie professionally-taken photographs* Hold the label design competition and choose the label design* Assemble the prepared calendar pack.A production cost forecast, based on the options and costs for the paper, envelope, printing and marketing of the calendar is to be produced in stage 2. However, the actual production and distribution of the calendars is not within the scope of the project. The product cost forecast will be reviewed by the Project Board to determine whether tie project should continue.It is now 05 October and the prepared calendar pack must be delivered to the print company by 30 November, to enable printing and distribution of the calendar in time for Christmas. The cost of the activities to develop the specialist products and the cost of the project management activities are estimated to be £20,000. There is a project time tolerance of +1 week /-2 weeks and a project cost tolerance of +£6,000 / -£6,000. A change budget of £500 has been allocated but there is no risk budget.As the project approaches the end of stage 2, the Project Manager has requested a Product Status Account to ensure that all products are at their expected point of development. Although the list of customers has been quality reviewed, it has not been baselined because the Marketing department have not provided all of the prospective customers' details. What initial action should the Project Manager take?**A.** Delay producing the End Stage Report until the list of customers has been baselined.**B.** Update the product status to baselined and obtain a commitment from the Marketing department to finish this work within the next few days.**C.** Raise an Exception Report to the Project Board to highlight the issue.**D.** Check the target sign-off date for the list of customers.**Answer: D**

NEW QUESTION: 4 Select the action that results from executing these commands. Switch(config-if)# switchport port-securitySwitch(config-if)# switchport port-security mac-address sticky**A.** A dynamically learned MAC address is saved in the startup-configuration file.**B.** Statically configured MAC addresses are saved in the startup-configuration file if frames from that address are received.**C.** Statically configured MAC addresses are saved in the running-configuration file if frames from that address are received.**D.** A dynamically learned MAC address is saved in the running-configuration file.**E.** A dynamically learned MAC address is saved in the VLAN database.**Answer: D**Explanation:In the interface configuration mode, the command switchport port-security mac-address sticky enables sticky learning. When entering this command, the interface converts all the dynamic secure MAC addresses to sticky secure MAC addresses.
