ows-2008-server upgrade considerations for Server Core installations of Windows Server 2008 so that rules out B You can use the Server Core installation option only by performing a clean installation. You cannot upgrade from earlier versions of Windows to Server Core installations of Windows Server 2008. You cannot upgrade from non-Server Core installations of Windows Server 2008 to Server Core installations of Windows Server 2008. You cannot convert Server Core installations of Windows Server 2008 to non-Server Core installations of Windows Server 2008. You can upgrade Server Core installations of Windows Server 2008 only to Windows Server Core R2 when it is released. Answer C is possible but again you're asked to minimize

effort so D would be 1 step less thus reducing your effort and possible down time.
