NEW QUESTION: 1What are two Mobile Apps Extension Library Controls? (Choose two.)**A.** Mobile Button**B.** Mobile Header**C.** Rounded List**D.** Static List**E.** Mobile Layout**Answer: B,C**

NEW QUESTION: 2Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series. Information and details provided in a question apply only to that question. You collect performance metrics on multiple Microsoft SQL Server instances and store the data in a single repository. You need to examine disk usage, query statistics, and server activity without building custom counters. What should you use?**A.** Activity Monitor**B.** Sp_who3 stored procedure**C.** SQL Server Configuration Manager**D.** SQL Server Data Collector**E.** SQL Server Data Tools (SSDT)**F.** Object Explorer in the Microsoft SQL Server Management Studio (SSMS)**Answer: D**
Explanation/Reference: Explanation: The data collector is a core component of the data collection platform for SQL Server 2017 and the tools that are provided by SQL Server. The data collector provides one central point for data collection across your database servers and applications. This collection point can obtain data from a variety of sources and is not limited to performance data

NEW QUESTION: 3Which of the following contains the names of the fields involved in the query and the criteria used to select records?**A.** Title bar**B.** QBE grid**C.** Quick Access Toolbar**D.** Navigation Pane**Answer: B**
Explanation: The QBE grid contains the names of the fields involved in the query and the criteria used to select records. In the QBE grid, each column consists of information about a single field from a query or table that is included in the upper pane. The image of the QBE grid is given below: Answer C is incorrect. The Quick Access Toolbar in MS Access 2010 is a customizable toolbar which is displayed in the title bar of the Database window. It has a set of commands or functions (save, undo/redo, and print) that are independent of the tab on the ribbon currently displayed in MS Access. The Quick Access Toolbar can be moved from one of the two possible locations. A user can add any Access

command as a button to the Quick Access Toolbar. Answer A is incorrect. The Navigation Pane is displayed on the left side in a new or existing database. The pane contains different database Objects such as tables, queries, forms, reports, macros, etc. The database can be opened through the pane in different modes such as datasheet view, Design view, and layout view. A user can use the navigation Pane to show or hide the database objects. Answer D is incorrect. The title bar is an area on the Database Window. It is used to show the name of the active database object.
