NEW QUESTION: 1 Audit programs are typically designed to meet one or more of the following objectives Except:**A.** Determining liabilities**B.** Assuring compliance with regulations**C.** Increasing environmental awareness**D.** Tracking and removing of compliance costs**Answer: D**

NEW QUESTION: 2 Note: This question is part of a series of questions that present the same Scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution while others might not have correct solution. You are working on an Azure Machine Learning Experiment. You have the dataset configured as shown in the following table: You need to ensure that you can compare the performance of the models and add annotations to the results. Solution: You consolidate the output of the Score Model modules by using the Add Rows module, and then use the Execute R Script module. Does this meet the goal?**A.** NO**B.** YES**Answer: A**

NEW QUESTION: 3 A database is stored in an Automatic Storage Management (ASM) disk group, disk group, DGROUP1 with SQL: There is enough free space in the disk group for mirroring to be done. What happens if the CONTROLLER1 failure group becomes unavailable due to error or for maintenance?**A.** ASM does not mirror any data until the CONTROLLER1 failure group is brought back online, and newly allocated primary allocation units (AU) are stored in the CONTROLLER2 failure group, without mirroring.**B.** Mirroring of allocation units will be done to ASM disks in the CONTROLLER2 failure group until the CONTROLLER1 failure group is brought back online.**C.** Transactions and queries accessing database objects contained in any tablespace stored in DGROUP1 will fail.**D.** The data in the CONTROLLER1 failure group is copied to the CONTROLLER2 failure group and rebalancing is initiated.**Answer: A**

NEW QUESTION: 4 You have a server named Server1 that runs Windows Server 2012. You download and install the Microsoft Online Backup Service Agent on Server1. You need to ensure that you can configure an online backup from Windows Server Backup. What should you do first?**A.** From a command prompt, run wbadm.exe enable backup.**B.** From Computer Management, add the Server1 computer account to the Backup Operators group.**C.** From the Services console, modify the Log On settings of the Microsoft Online Backup Service Agent.**D.** From Windows Server Backup, run the Register Server Wizard.**Answer: D** Explanation: Download and install the Windows Azure Online Backup Agent After you create an account on the

Windows Azure Online Backup website, you can download the Windows Azure Online Backup Agent and install it locally. An Online Backup node then appears in the navigation pane of the Windows Server Backup console, as shown in Figure 12. If you prefer, you can also configure online backups from the Windows Azure Online Backup console, which becomes available after you install the agent. The Windows Azure Online Backup console provides exactly the same set of options as the Online Backup node in the Windows Server Backup console.

Register server
The next step is to register your server. Registering a server enables you to perform backups from that same server only. (Remember this point for the exam.) To register the server, from the Actions menu, select Register Server. The Register Server Wizard includes two configuration steps. First, you are given an opportunity to specify a proxy server if desired. Second, you are asked to provide a passphrase that will be used to encrypt your backup data and a location to save this passphrase in a file. You need to provide this passphrase when you perform a restore operation, so it's essential that you don't lose it. (Microsoft doesn't maintain a copy of your passphrase.) A Generate Passphrase option creates the passphrase for you automatically. After you register a server, new options for Online Backup appear in the Actions pane, including Schedule Backup, Recover Data, Change Properties, and Unregister Server.
