NEW QUESTION: 1 A company plans to use Microsoft Flow to automate tasks. Match each flow type to its function. To answer, drag the appropriate flow type from the column on the left to its description on the right. Each option may be used once, more than once, or not at all. **NOTE:** Each correct match is worth one point. **Answer:** Explanation: Explanation: Box 1: automated Automated flows start with an event or trigger, such as an email being received. These also support a multitude of actions in the 200+ Flow connectors. Box 2: business process The business process flow that creates stages or screens that enforce a certain sequence of steps. It collects data from users for each step in the stage and can kick off automated workflows. Box 3: scheduled Scheduled flows run regular reports that are sent out to a team and summarize everything that's happened in the past week. This includes everything from simple daily scheduling to more complex scheduling like "every 3rd Monday." Box 4: instant An instant flow is triggered when you click a button inside of the Flow mobile app, SharePoint, Dynamics, PowerApps, or Excel that passes context directly into your flow. **Note:** There are four different Flow types that you can choose from when starting out. You can create a scheduled flow, automated flow, instant flow, or a business process flow. **Reference:** <https://www.avepoint.com/blog/office-365/office-365-automation/>
