NEW QUESTION: 2 Which of the following would help to change an organization's security culture?
A. Periodically audit compliance with the information security policy
B. Implement strict technical security controls
C. Obtain strong management support
D. Develop procedures to enforce the information security policy
Answer: C
Explanation: Explanation/Reference:
Explanation: Management support and pressure will help to change an organization's culture. Procedures will support an information security policy, but cannot change the culture of the organization. Technical controls will provide more security to an information system and staff; however, this does not mean the culture will be changed. Auditing will help to ensure the effectiveness of the information security policy; however, auditing is not effective in changing the culture of the company.
