The software also contains a practice exam, Simulates exam environment.

NEW QUESTION: 1 Which IP SLA operation requires the IP SLA responder to be configured on the remote end?
A. ICMP echo **B.** TCP connect **C.** CMP jitter **D.** UDP jitter
Answer: D
Explanation: Explanation Cisco IOS IP SLA Responder is a Cisco IOS Software component whose functionality is to respond to Cisco IOS IP SLA request packets. The IP SLA source sends control packets before the operation starts to establish a connection to the responder. Once the control packet is acknowledged, test packets are sent to the responder. The responder inserts a time-stamp when it receives a packet and factors out the destination processing time and adds time-stamps to the sent packets. This feature allows the calculation of unidirectional packet loss, latency, and jitter measurements with the kind of accuracy that is not possible with ping or other dedicated probe testing:

https://www.cisco.com/en/US/technologies/tk869/tk769/technologies_white_paper0900aecd806bfb52.html The IP SLAs responder is a component embedded in the destination Cisco device that allows the system to anticipate and respond to IP SLAs request packets. The responder provides accurate measurements without the need for dedicated probes. Reference: <https://www.cisco.com/c/en/us/td/docs/switches/lan/catalyst4500/12-2/46sg/configuration/guide/Wrapper-46SG/swipsla.html> UDP Jitter measures the delay, delay variation(jitter), corruption, misordering and packet loss by generating periodic UDP traffic. This operation always requires IP SLA responder. Reference: <https://www.ciscolive.com/c/dam/r/ciscolive/us/docs/2017/pdf/BRKNMS-3043.pdf>

NEW QUESTION: 2 View the exhibit. What does the log message indicate? (Choose two.)
A. 10.0.1.10 is the IP address for mind-surf.net. **B.** FortiGate blocked the traffic. **C.** Firewall policy ID 6 matched the traffic. **D.** The log type is utm.
Answer: B,D

NEW QUESTION: 3 HOTSPOT You review a web form that contains the following markup and code: You need to ascertain how the webpage responds when it loads and how it reacts to user actions. For each statement in the table, select Yes if the code segment above causes the page to behave as described. Select No if it does not. Make only one selection in each column.
Answer: Explanation:

NEW QUESTION: 4 A business analyst is NOT familiar with the data and is using insight advisor to create a number of visualizations. Which steps should the business analyst take to add the visualizations to a sheet?
A. Use smart search to find visualizations, then click Add to sheet **B.** Click Generate insights to find visualizations, then click Add to sheet **C.** Drag and drop fields on the workspace, then click Add to sheet **D.** Use the selection tool to find visualizations, then click

Add to sheet **Answer: D**
