NEW QUESTION: 1 DRAG DROP You plan to delegate the management of virtual machines to five groups by using Microsoft System Center 2012 Virtual Machine Manager (VMM). The network contains 20 Hyper-V hosts in a host group named HostGroup1. You identify the requirements for each group as shown in the following table. You need to identify which user role must be assigned to each group. Which user roles should you identify? To answer, drag the appropriate user role to the correct group in the answer area. Each user role may be used once, more than once, or not at all. Additionally, you may need to drag the split bar between panes or scroll to view content. Select and Place:
Answer: Explanation: Explanation/Reference: Explanation: You can create user roles in System Center 2012 - Virtual Machine Manager (VMM) to define the objects that users can manage and the management operations that users can perform. Members of the Administrators user role perform all administrative actions on all objects that VMM manages. Administrators have sole responsibility for these features of VMM.
