NEW QUESTION: 3Which of the following provides coordinated procedures for minimizing loss of life, injury, and property damage in response to a physical threat?
A. Incident response plan
B. Occupant emergency plan
C. Business continuity plan
D. Disaster recovery plan
Answer: B
Explanation: The Occupant Emergency Plan (OEP) provides the response procedures for occupants of a facility in the event of a situation posing a potential threat to the health and safety of personnel, the environment, or property. Such events would include a fire, hurricane, criminal attack, or a medical emergency. OEPs are developed at the facility level, specific to the geographic location and structural design of the building. The following are incorrect answers: The business continuity plan addresses business processes and provides procedures for sustaining essential business operations while recovering from a significant disruption. The incident response plan focuses on information security responses to incidents affecting systems and/or networks. It establishes procedures to address cyber attacks against an organization's IT systems. The disaster recovery plan (DRP) applies to major, usually catastrophic events that deny access to the normal facility for an extended period.
