NEW QUESTION: 1 Stephanie works as a records clerk in a large office building in downtown Chicago. On Monday, she went to a mandatory security awareness class (Security5) put on by her company's IT department. During the class, the IT department informed all employees that everyone's Internet activity was thenceforth going to be monitored.Stephanie is worried that her Internet activity might give her supervisor reason to write her up, or worse get her fired. Stephanie's daily work duties only consume about four hours of her time, so she usually spends the rest of the day surfing the web. Stephanie really enjoys surfing the Internet but definitely does not want to get fired for it.What should Stephanie use so that she does not get in trouble for surfing the Internet?**A.** Stealth Anonymizer**B.** Stealth IE**C.** Cookie Disabler**D.** Stealth Firefox
Answer: A

NEW QUESTION: 2 Which of the following is a benefit of using callback devices?**A.** Allow call forwarding**B.** Can be used in a switchboard environment**C.** Permit unlimited user mobility**D.** Provide an audit trail**Answer: D**Explanation:A callback feature hooks into the access control software and logs all authorized and unauthorized access attempts, permitting the follow-up and further review of potential breaches. Call forwarding (choice D) is a means of potentially bypassing callback control. By dialing through an authorized phone number from an unauthorized phone number, a perpetrator can gain computer access. This vulnerability can be controlled through callback systems that are available.
