NEW QUESTION: 2 You have an Azure Service Bus. You create a queue named Queue1. Queue1 is configured as shown in the following exhibit. Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point. **Answer:** Explanation: Explanation Box 1:

deleted after two hours All messages sent into a queue or topic are subject to a default expiration that is set at the entity level with the default MessageTimeToLive property and which can also be set in the portal during creation and adjusted later. The default expiration is used for all messages sent to the entity where TimeToLive is not explicitly set. The default expiration also functions as a ceiling for the TimeToLive value. Messages that have a longer TimeToLive expiration than the default value are silently adjusted to the default MessageTimeToLive value before being enqueued. Box 2: deleted in one hour References:
