NEW QUESTION: 1 Which of the following is NOT a tool or technique of Risk Monitoring and Control?
A. Bringing in an outside party to review your risk response strategies
B. Using Earned Value analysis to find variances that point to potential project problems
C. Revisiting your risk register to review and reassess risks
D. Gathering information about how the work is being performed
Answer: D
Explanation: When do you gather work performance information? You do it when you're reporting on the performance of the team - that's why it's a tool and technique of the Performance Reporting process. But that's not something you do during Risk Monitoring and Control - Work Performance Information is an input to that process, which means it needs to be gathered BEFORE you start monitoring and controlling your risks.
