NEW QUESTION: 1A. SMTPB. FTPC. TFTPD. SNMPE. DNS**Answer: A,B**Explanation:Explanation SMTP uses TCP port 25, while FTP uses TCP ports 20 and 21.Reference: <http://pentestlab.wordpress.com/2012/03/05/common-tcpip-ports/>

NEW QUESTION: 2Gwen works for a small company where she has been asked to find a cost-effective option for providing comprehensive customer service. The finance, technical support, sales and customer service departments all need to share information about their customers. Gwen is considering adoption of a customer relationship management (CRM) application. Which of the following would be the most cost-effective solution?**A.** She can purchase a new server, then create and maintain the CRM in-house.**B.** She can outsource all customer service so the company can focus on product development.**C.** She can contract with a cloud service provider to host the CRM that her company's employees can access.**D.** She can hire a programmer to develop and maintain the CRM specific to her company's needs, then have a service provider host the application.**Answer: C**

NEW QUESTION: 3A security audit identifies a number of large email messages being sent by a specific user from their company email account to another address external to the company. These messages were sent prior to a company data breach, which prompted the security audit. The user was one of a few people who had access to the leaked data. Review of the suspect's emails show they consist mostly of pictures of the user at various locations during a recent vacation. No suspicious activities from other users who have access to the data were discovered. Which of the following is occurring?**A.** The user is using hashing to embed data in the emails.**B.** The user is spamming to obfuscate the activity.**C.** The user is using steganography.**D.** The user is encrypting the data in the outgoing messages.**Answer: C** Explanation:Steganography is the process of hiding one message in another. Steganography may also be referred to as electronic watermarking. It is also the process of hiding a message in a medium such as a digital image, audio file, or other file. In theory, doing this prevents analysts from detecting the real message. You could encode your message in another file or message and use that file to hide your message. Incorrect Answers:A. Encrypting data means securing the data.C. Spamming is any unwanted email.D. Hashing refers to the hash algorithms used in cryptography.
