NEW QUESTION: 3 You have a server named Server1 that runs Windows Server 2012 R2. Server1 has the File Server Resource Manager role service installed. Server1 has a folder named Folder1 that is used by the sales department. You need to ensure that an email notification is sent to the sales manager when a File Screening Audit report is generated. What should you configure on Server1?
A. a storage report task
B. a file group
C. a file screen
D. a file screen exception
Answer: A
Explanation: Explanation/Reference: Explanation: From the Storage Reports Management node, you can generate reports that will help you understand file use on the storage server. You can use the storage reports to monitor disk usage patterns (by file type or user), identify duplicate files and dormant files, track quota usage, and audit file screening. Before you run a File Screen Audit report, in the File Server Resource Manager Options dialog box, on the File Screen Audit tab, verify that the Record file screening activity in the auditing database check box is selected.
