We have 7*24 customer support center, And you can also take some notes on them, Thus, the CPC-CDE study information in your hands will keep updated, and you can grasp the CPC-CDE exam dynamic in real time.

When choosing a CPC-CDE Question Bank, look for these, CPC-CDE study guide is an authoritative training material which specializes in helping you to get certificated.

and you will find out the unique charm of our CPC-CDE actual exam.

NEW QUESTION: 1Your network contains an Active Directory forest. The functional level of the forest is Windows Server 2008 R2. You plan to deploy DirectAccess. You need to configure the DNS servers on your network to support DirectAccess. What should you do?**A.** Create a trust anchor that uses a certificate issued by an internal certification authority (CA).**B.** Modify the EnableGlobalNamesSupport registry key and restart the DNS Server service.**C.** Modify the GlobalQueryBlockList registry key and restart the DNS Server service.**D.** Create a trust anchor that uses a certificate issued by a publicly trusted certification authority (CA).**Answer: C**
Explanation: Configure your DNS servers running Windows Server 2008 R2 or Windows Server 2008 to support resolution of the Intra-Site Automatic Tunnel Addressing Protocol (ISATAP) name. By default, DNS servers running Windows Server 2008 R2 or Windows Server 2008 use the global query block list to block the resolution of the name ISATAP. To allow name resolution for the ISATAP name, you must remove ISATAP from the global query block list of the DNS Server service for each DNS server on your intranet running Windows Server 2008 R2 or Windows Server 2008. To remove ISATAP from the DNS global query block list:
1. Click Start, click All Programs, click Accessories, rightclick Command Prompt, and then click Run as administrator.
2. In the Command Prompt window, type dnscmd /config / globalqueryblocklist wpad, and then press ENTER.
3. Close the Command Prompt window.

NEW QUESTION: 2Which of the following would not constitute an event of market disruption under the Model Code?**A.** A major terrorist attack on a financial centre.**B.** The imposition of capital controls.**C.** Concerted central bank intervention.**D.** The failure of SWIFT.**Answer: C**

NEW QUESTION: 3In which stage of the requirements engineering process are requirements checked to see whether they are well formed and SMART?**A.** Requirements analysis.**B.** Requirements elicitation.**C.** Requirements management.**D.** Requirements documentation.
Answer: A
