NEW QUESTION: 1You have an application that consists of several Azure App Service web apps and Azure functions. You need to access the security of the web apps and the functions. Which Azure features can you use to provide a recommendation for the security of the application?
A. Resource health in Azure Service Health
B. Compute & apps in Azure Security Center
C. Security & Compliance in Azure Log Analytics
D. Smart Detection in Azure Application Insights
Answer: B
Explanation: Explanation Monitor compute and app services: Compute & apps include the App Services tab, which App services: list of your App service environments and current security state of each. Recommendations This section has a set of recommendations for each VM and computer, web and worker roles, Azure App Service Web Apps, and Azure App Service Environment that Security Center monitors. The first column lists the recommendation. The second column shows the total number of resources that are affected by that recommendation. The third column shows the severity of the issue.

NEW QUESTION: 2You need to create the UserLicenses group. The solution must meet the security requirements. Which group type and control method should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer: Explanation:ExplanationFabrikam plans to create a group named UserLicenses that will manage the allocation of all Microsoft 365 bulk licenses.The memberships of UserLicenses must be validated monthly. Unused user accounts must be removed from the group automatically.The group needs to be a Security group.Azure Active Directory (Azure AD) access reviews enable organizations to efficiently manage group memberships, access to enterprise applications, and role assignments. User's access can be reviewed on a regular basis to make sure only the right people have continued access.Reference:
<https://docs.microsoft.com/en-us/azure/active-directory/governance/access-reviews-overview>

NEW QUESTION: 3 Rules of Engagement (ROE) document provides certain rights and restriction to the test team for performing the test and helps testers to overcome legal, federal, and policy-related restrictions to use different penetration testing tools and techniques.What is the last step in preparing a Rules of Engagement (ROE) document?**A.** Have pre-contract discussions with different pen-testers**B.** Decide the desired depth for penetration testing**C.** Conduct a brainstorming session with top management and technical teams**D.** Conduct a brainstorming session with top management and technical teams **Answer: D**
