Our NSE7_PBC-7.2 exam questions own a lot of advantages that you can't imagine.

NEW QUESTION: 1 A company's policy requires that all data stored in Amazon S3 is encrypted. The company wants to use the option with the least overhead and does not want to manage any encryption keys. Which of the following options will meet the company's requirements? **A.** AWS Trusted Advisor **B.** Server Side Encryption (SSE-S3) **C.** Server Side Encryption (SSE-KMS) **D.** AWS CloudHSM **Answer: B**

NEW QUESTION: 2 Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution. After you answer a question in this sections, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You network contains an Active Directory forest named contoso.com. All domain controllers run Windows Server 2016. Member servers run either Windows Server 2012 R2 or Windows Server 2016. Client computers run either Windows 8.1 or Windows 10. You need to ensure that when users access files in shared folders on the network, the files are encrypted when they are transferred over the network. Solution: You enable access-based enumeration on all the file shares. Does this meet the goal? **A.** Yes **B.** No **Answer: B**

NEW QUESTION: 3 Which of the following procedures would an auditor ordinarily perform first in evaluating management'saccounting estimates for reasonableness? **A.** Obtain an understanding of how management developed its estimates. **B.** Develop independent expectations of management's estimates. **C.** Consider the appropriateness of the key factors or assumptions used in preparing the estimates. **D.** Test the calculations used by management in developing the estimates. **Answer: A** Explanation: Explanation/Reference: Explanation: Choice "D" is correct. In evaluating the reasonableness of an accounting estimate, the auditor should firstobtain an understanding of how management developed its estimate. Choice "A" is incorrect. After first obtaining an understanding of how management developed its estimate,

the auditor should use one or a combination of the following approaches: a) review and test the processused by management to develop the estimate, b) develop an independent expectation of the estimate tocorroborate the reasonableness of management's estimate, or c) review subsequent events.Choice "B" is incorrect. After having first obtained an understanding of how management developed itsestimate, the auditor should consider testing management's process by assessing the appropriateness ofthe key factors or assumptions used in preparing the estimate.Choice "C" is incorrect. After first obtaining an understanding of how management developed its estimate,the auditor should use one or a combination of the following approaches: a) review and test the processused by management to develop the estimate, b) develop an independent expectation of the estimate tocorroborate the reasonableness of management's estimate, or c) review subsequent events.

NEW QUESTION: 4 Which statement about Layer 2 protocol participation of ports involved in a SPAN session is true?**A.** Neither a SPAN source nor SPAN destination participates in any Layer 2 protocols.**B.** Both SPAN source and SPAN destination participate in any Layer 2 protocols.**C.** A SPAN source does not participate in any Layer 2 protocols.**D.** A SPAN destination does not participate in any Layer 2 protocols.**Answer: D**
