NEW QUESTION: 1 DRAG DROP **Answer:** Explanation:

NEW QUESTION: 2 Your company uses Office 365 and has an Enterprise E3 plan. The company has a Microsoft SharePoint Online public website that is currently configured to use the onmicrosoft.com domain name. The company purchases a new domain name. You need to change the address of the SharePoint Online public website to the new domain name. What should you do first? **A.** Create a new public website and assign it to the new domain. **B.** In the SharePoint Online Administration Center, add the new domain. **C.** Create a new site collection and assign it the new domain. **D.** In the Office 365 admin center, add the new domain. **Answer: D**
Explanation: If you go to the SharePoint Online Administration Center and click the "Add Domain" button it takes you to the same location as if you would have clicked the "Domains" -> "Add domain" option from the Office 365 admin center. So either A or B is technically correct, but as this is an Office 365 exam, I would select B. References:
