**NEW QUESTION: 1**You have an Azure subscription named Subscription1. Subscription1 contains a virtual machine named VM1.You install and configure a web server and a DNS server on VM1.VM1 has the effective network security rules shown in the following exhibit.Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.NOTE: Each correct selection is worth one point.**Answer:** Explanation:ExplanationBox 1:Rule2 blocks ports 50-60, which includes port 53, the DNS port. Internet users can reach to the Web server, since it uses port 80.Box 2:If Rule2 is removed internet users can reach the DNS server as well.Note: Rules are processed in priority order, with lower numbers processed before higher numbers, because lower numbers have higher priority. Processing stops once traffic matches a rule, as a result, any rules that exist with lower priorities (higher numbers) that have the same attributes as rules with higher priorities are not processed.References:
