Moreover, we are also providing money back guarantee on all of C1000-161 test products, If users fail exams within one year, we will full refund to you, As you can see, this short list in itself has many good reasons to become certified.

NEW QUESTION: 1BCP (Best Common Practices) 38/RFC 2827 Ingress and Egress Packet Filtering would help mitigate what classification of attack?**A.** Sniffing attack**B.** Spoofing attack**C.** Port Scan attack**D.** Reconnaissance attack**E.** Denial of service attack**Answer: B****Explanation:**6. Summary Ingress traffic filtering at the periphery of Internet connected networks will reduce the effectiveness of source address spoofing denial of service attacks. Network service providers and administrators have already begun implementing this type of filtering on periphery routers, and it is recommended that all service providers do so as soon as possible. In addition to aiding the Internet community as a whole to defeat this attack method, it can also assist service providers in locating the source of the attack if service providers can categorically demonstrate that their network already has ingress filtering in place on customer links. Corporate network administrators should implement filtering to ensure their corporate networks are not the source of such problems. Indeed, filtering could be used within an organization to ensure users do not cause problems by improperly attaching systems to the wrong networks. The filtering could also, in practice, block a disgruntled employee from anonymous attacks. It is the responsibility of all network administrators to ensure they do not become the unwitting source of an attack of this nature.

NEW QUESTION: 2Which two statement are correct regarding activity assignment via Collaboration? (Choose two.)**A.** An activity broadcasted via Collaboration as part of any type of routing plan schedule gets assigned to the first technician to accept it.**B.** An activity dragged and dropped into a Collaboration chat with a resource can be automatically assigned without the resource having to accept it.**C.** An activity dragged and dropped into a Collaboration chat with a resource must be accepted by that resource in order for it to be assigned.**D.** An activity broadcasted via Collaboration as part of an Immediate routing plan schedule gets assigned to the first technician to accept it.**Answer: A,D**

NEW QUESTION: 3You have a model that contains the following table named Sales. You have a measure named TotalSales that calculates the sum of LineTotal. You plan to create a PivotChart to display TotalSales for each category and the percent of total sales for each category as shown in the following exhibit. How should you complete the DAX formula for the Percent measure? To answer, drag the appropriate fields to the correct areas. Each field may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.**Answer:** Explanation: Explanation $\text{DIVIDE}(\text{TotalSales}, \text{CALCULATE}(\text{LineTotal}, \text{ALL}(\text{TotalSales}), 0))$
