The passing rate of exam candidates who chose our Databricks-Certified-Data-Engineer-Professional exam torrent is over 98 percent, Welcome to the Databricks Databricks-Certified-Data-Engineer-Professional Databricks Certified Data Engineer Professional Exam, It is because our professional **Databricks-Certified-Data-Engineer-Professional Reliable Dumps Ebook** experts and persistent research of the Databricks Certified Data Engineer Professional Exam practice materials all these years.

**NEW QUESTION: 1** Which sentences are true about cross-docking There are 2 correct answers to this question. Response: **A.** For cross-docking, EWM only considers inbound delivery items for which goods receipt has not been confirmed **B.** For cross-docking, EWM only considers inbound delivery items for which goods receipt has been confirmed **C.** EWM consider inbound delivery items that are relevant for the quality inspection **D.** EWM does not consider inbound delivery items that are relevant for the quality inspection **Answer: B,D**

**NEW QUESTION: 2** A company uses a data-connected Microsoft Excel workbook to build reports from external data sources. Data is not refreshed when the workbook is displayed in a browser. You need to ensure that users can refresh Excel workbooks that are displayed in a browser. Which two actions should you perform? (Each correct answer presents a complete solution. Choose two.) **A.** Add the document library containing the Excel workbook to the Trusted File Locations list. **B.** Create a trusted data connection library and add a data

connection file.**C.** Create a Group Policy Object that adds the SharePoint URL to the Trusted Sites zone in Windows Internet Explorer.**D.** Configure the Secure Store service application for the Excel workbook.**E.** Embed the data connection information directly in the Excel workbook.  
**Answer: D,E**Explanation:To configure Excel Services data access to use embedded data connections,you use the following process:Configure a data access account(A)Create a Secure Store target application(B)Configure a workbook to use an embedded data connectionA: You must create a target application in Secure Store that contains the credentials that you created for data access. This target application can then be specified in data-connected Excel workbooks and will be used by Excel Services when it refreshes data in the workbook.B: Configure a workbook to use an embedded data connection You must configure the Excel Services Authentication Settings in the workbook before you publish it to SharePoint Server 2013. Doing so enables the workbook to use a Secure Store target application to refresh data that is rendered using Excel Services. Use the following procedure to configure the authentication settings.Note:\* Excel Services in SharePoint Server 2013 provides three methods of using Secure Store Service to refresh the external data source in a workbook:/ You can use an unattended service account./ You can specify a Secure Store target application in a workbook. (This is known as an embedded connection.)/ You can use an Office Data Connection (ODC) file that specifies a Secure Store target application. This article describes how to do this.Reference: Configure Excel Services data refresh by using external data connections in SharePoint Server 2013

**NEW QUESTION: 3**Refer to the exhibit.All routers have FULL OSPF adjacencies. Which reason is likely that R3 is missing the 2001:DB8:100:164 route?**A.** R1 has loop-free alternate routing configured**B.** R1 has an incorrect area number configured**C.** R1 has LSA throttling configured**D.** R1 has prefix suppression configured**Answer: D**
