**NEW QUESTION: 1**You have an Azure Active Directory (Azure AD) tenant.You need to create a conditional access policy that requires all users to use multi-factor authentication when they access the Azure portal.Which three settings should you configure? To answer, select the appropriate settings in the answer area.**Answer:** Explanation:Reference:  
<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/app-based-mfa>

**NEW QUESTION: 2**Which chassis-aggregation technology combines two physical switches into one virtual switch?**A. StackWiseB. LACP. VSSD. VRRPAnswer: C**

**NEW QUESTION: 3**Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.You have a container named Sales in an Azure Cosmos DB database. Sales has 120 GB of data. Each entry in Sales has the following structure.The partition key is set to the OrderId attribute.Users report that when they perform queries that retrieve data by ProductName, the queries take longer than expected to complete.You need to reduce the amount of time it takes to execute the problematic queries.Solution: You increase the Request Units (RUs) for the database.Does this meet the goal?**A. NoB. YesAnswer: B**Explanation:To scale the provisioned throughput for your application, you can increase or decrease the number of RUs at any time.Note: The cost of all database operations is normalized by Azure Cosmos DB and is expressed by Request Units (or RUs, for short). You can think of RUs per second as the currency for throughput. RUs per second is a rate-based currency. It abstracts the system resources such as CPU, IOPS, and memory that are required to perform the database operations supported by Azure Cosmos DB.Reference:
