NEW QUESTION: 2 Your network consists of a single Active Directory forest.You have 50 portable computers and 50 desktop computers. All computers have 32-bit hardware.You plan to deploy Windows 7 and 10 corporate applications to the computers by using a custom image. You need to prepare for the deployment by using the minimum amount of administrative effort.What should you do first?**A.** On one computer, install Windows 7 and the corporate applications.**B.** On a server, install the Windows Automated Installation Kit (AIK) and run Windows System Image Manager (Windows SIM).**C.** On a server, install and run the Microsoft Assessment and Planning (MAP) Toolkit.**D.** On one portable computer and one desktop computer, install Windows 7 and the corporate applications.**Answer: A**Explanation:To prepare the reference computer for the user, you use the Sysprep utility with the /generalize option to remove hardware-specific information from the Windows installation and the /oobe option to configure the computer to boot to Windows Welcome upon the next restart. Open an elevated command prompt on the reference computer and run the following command: c:windowssystem32sysprepsysprep.exe /oobe /generalize /shutdownSysprep prepares the image for capture by cleaning up various user-specific and computer-specific settings, as well as log files. The reference installation now is complete and ready to be imaged./generalize Prepares the Windows installation to be imaged. If you specify this option, all unique system information is removed from the Windows installation. The SID is reset, system restore points are cleared, and event logs are deleted. The next time the computer starts, the specialize configuration pass runs. A new SID is created, and the clock for Windows activation resets (unless the clock has already been reset three times)./oobeRestarts the computer in Windows Welcome mode. Windows Welcome enables users to customize their Windows 7 operating system, create user accounts, and name the computer. Any settings in the oobeSystem configuration pass in an answer file are processed immediately before Windows Welcome

starts.
