NEW QUESTION: 3Which two record types require a reference to the subject tree? Each answer presents part of the solution. (Choose TWO)**A.** Sales Attachments**B.** Case Resolution Activity**C.** Knowledge Base articles**D.** Cases**E.** Sales Literature**Answer: C,E**

NEW QUESTION: 4During a security audit of IT processes, an IS auditor found that there were no documented security procedures. The IS auditor should:**A.** terminate the audit.**B.** create the procedures document.**C.** conduct compliance testing.**D.** identify and evaluate existing practices.**Answer: D**Explanation:Explanation/Reference:Explanation:One of the main objectives of an audit is to identify potential risks; therefore, the most proactive approach

would be to identify and evaluate the existing security practices being followed by the organization. IS auditors should not prepare documentation, as doing so could jeopardize their independence. Terminating the audit may prevent achieving one of the basic audit objectives, i.e., identification of potential risks. Since there are no documented procedures, there is no basis against which to test compliance.
