About customers' privacy, we firmly safeguard their rights and oppose any illegal [C-IBP-2211 Valid Exam Papers](#) criminal activity with our UiPath Certified Professional Automation Business Analyst Professional v1.0 exam study material, We have established a good reputation among the industry and the constantly-enlarged client base.

Any Photoexperienceacademy.com user who fails the corresponding **UiPath-ABAv1 Reliable Exam Answers** exam has 30 days from the date of purchase of Exam on Photoexperienceacademy.com for a full refund.

**NEW QUESTION: 1** Monitor option in Add Data provides \_\_\_\_\_. **A.** Only One-time monitoring. **B.** Only continuous monitoring. **C.** None of the above. **D.** Both One-time and continuous monitoring **Answer: D**

**NEW QUESTION: 2** ネットワークに contoso.com という名前の Active Directory ドメインが含まれています。

User1 という名前のユーザーのユーザーアカウントは OU1 という組織単位 (OU) にあります。User1 を有効にして、[\[email&#160;protected\]](#) としてログインする必要があります。Solution: Active Directory ユーザーとコンピュータから、User1 の電子メールプロパティを [\[email&#160;protected\]](#) に設定します。これは目標を満たしていますか? **A.** No **B.** Yes **Answer: A**

**NEW QUESTION: 3** Tableau 2020.1 で導入された新機能ではないものは次のうちどれですか? **A.** コントロールを設定 **B.** バッファ計算 **C.** Viz アニメーション **D.** 動的パラメータ **Answer: A**

Explanation: Explanation Your Tableau Desktop Specialist exam will be based on the 2020.1 version. Set controls are a new feature introduced in the 2020.2 version, and hence is the correct answer - it is not a part of 2020.1 For the 2020.1 version the new features were: 1) Viz animations: Viz animations help you see and understand your changing data. It's easy to track the logical steps behind data's evolution and tell powerful data stories. Sorting, filtering, adding fields, and other actions will now smoothly animate your visualizations. Choose whether to turn Viz Animations on or off, and decide how you'd best like to apply animations to your new workbooks. 2) Dynamic Parameters: Say goodbye to republishing workbooks with parameters every time the underlying data changes. Set your parameter once, and Tableau will automatically update the parameter's list of values every time someone opens the workbook. 3) Buffer Calculations: Buffer calculations allow you to visualize the distance around point locations. Give Tableau three parameters-location, distance, and a unit of measure-and a buffer, or boundary is instantly created. Answering complex spatial questions becomes easier than ever before-visualize what properties are within 200 meters of a proposed transit site, or how many competitors' stores are within 1 mile of their store, and more.

**NEW QUESTION: 4** HOTSPOT Your company has a Microsoft Office 365 subscription. From a network share, you plan to deploy Office 365 ProPlus to the client computers in a branch office by using the Office Deployment Tool. The share is located at \Server1\Office. Some of the users in the branch office are consultants who often work for extended periods in customer locations. All other users in the branch office work in the customer service department. During testing, you discover that Internet traffic spikes excessively during the installation of updates. From the Office Deployment Tool, you create a configuration file named Config1.xml for the consultants and you create a configuration file named Config2.xml for the customer service department. You need to ensure that the Office applications on all of the client computers are

updated regularly. The solution must minimize the amount of Internet traffic, whenever possible. Which configuration file should you modify and which configuration element should you add to the configuration file? To answer, select the appropriate options in the answer area.

**Answer:** Explanation:
