Free update for one year after purchasing is available for CCBA study guide, therefore there is no need for you to spend extra money on update version, It means that even if you are in a remote [New D-CSF-SC-23 Test Objectives](#) village or high mountain where doesn't have the internet, you will be able to study freely.

**NEW QUESTION: 1**When can a reduce class also serve as a combiner without affecting the output of a MapReduce program?**A.** When the signature of the reduce method matches the signature of the combine method.**B.** Always. The point of a combiner is to serve as a mini-reducer directly after the map phase to increase performance.**C.** Always. Code can be reused in Java since it is a polymorphic object-oriented programming language.**D.** When the types of the reduce operation's input key and input value match the types of the reducer's output key and output value and when the reduce operation is both communicative and associative.**E.** Never. Combiners and reducers must be implemented separately because they serve different purposes.**Answer: D**Explanation:Explanation/Reference:You can use your reducer code as a combiner if the operation performed is commutative and associative. Reference: 24 Interview Questions & Answers for Hadoop MapReduce developers, What are combiners?When should I use a combiner in my MapReduce Job?

**NEW QUESTION: 2**A bank is building a private cloud. They plan to offer services to customers and administrative staff. Each group has access to different levels of sensitive data with different performance characteristics. In addition, the bank must comply with PCI regulations when handling certain types of data on a small number of services.What should a cloud architect recommend to the bank during the cloud design phase?**A.** Implement multi-tenancy trust zones through the service catalog for customers and staff.Implement RBAC through the service catalog to protect regulated data.Create resource pools to support the performance characteristics.**B.** Implement multi-tenancy trust zones through the service catalog for regulated data. ImplementRBAC through the service catalog to protect customer and staff data.Create resource pools to support the performance characteristics.**C.** Implement multi-tenancy trust zones through the service catalog for customers and staff.Implement IT security mechanisms to protect regulated data.Create resource pools to support the performance characteristics.**D.** Implement multi-tenancy trust zones through the service catalog for customers and staff.Implement service orchestration to support the performance requirements.Create resource pools to restrict access to regulated data.**Answer: C**

**NEW QUESTION: 3**Scenario: A Citrix Architect is designing a XenDesktop environment. The Engineer group uses graphical applications which require the use of AMD hardware shared virtualized GPU. Which two hypervisors can the architect select? (Choose two.)**A.** XenServer 7.0 **B.** VMware vSphere 5.5**C.** VMware vSphere 6.0**D.** Microsoft Hyper-V Server 2012 R2**E.** XenServer 6.5**Answer: A,E**

**NEW QUESTION: 4**What is true about Organizational Change management in OUM Manage?**A.** It involves only the end-user community.**B.** New technology will overcome people's resistance. **C.** It increases the risk of organizational disruptions.**D.** Understanding how the clients deals

with change is critical to driving user acceptance. **Answer: D** Explanation: Explanation: The Organizational Change Management process starts at the strategic level with executives and then identifies the particular human and organizational challenges of the technology implementation in order to design a systematic, time-sensitive, and cost-effective approach to lowering risk that is tailored to each organization's specific needs. In addition to increasing user adoption rates, carefully planning for and managing change in this way allows organizations to maintain productivity through often difficult technological transitions. This in turn enables the organization to more easily meet deadlines, realize business objectives, and maximize return on investment
