NEW QUESTION: 1 Which of the following processes is described in the statement below? "It is the process of identifying the specific actions to be performed to produce the project deliverables." **A.** Create WBS **B.** Define Scope **C.** Sequence Activities **D.** Define Activities **Answer: D**

NEW QUESTION: 2 Scenario: A Citrix Architect needs to design a new XenApp and XenDesktop environment. The customer previously installed all applications locally on managed laptops and desktops but is willing to evaluate other application delivery methods as part of the new deployment. The environment will be standardized on Windows 10 and Windows Server 2016 for the Virtual Delivery Agent (VDA) machines. As part of an application analysis performed earlier in the project, the information in the Exhibit was collected regarding one of the required applications. Click the Exhibit button to view the information. Additionally, the customer has the following objectives: Minimize the time required to perform application patches and updates Each department should have a dedicated image that is NOT accessible to other departments Each departmental image should only include the applications required by that department How should the architect install the application? **A.** Directly on endpoint devices and included in a virtual desktop session using the Local App Access feature **B.** Stream it to a VDA machine using Microsoft App-V and accessed through a virtual desktop session **C.** On an Application Layer using Citrix App Layering, be included in a layered image, and accessed through a virtual desktop session **D.** Directly on a Server OS VDA machine and accessed from the endpoint as a published application **E.** On an Application Layer using Citrix App Layering then be presented to assigned users as an Elastic Layer during a virtual desktop session **Answer: D** Explanation: Note: Virtual Apps will provide more users per server so less servers while Virtual Desktops will be 1 user per VD so more servers to sustain the same amount of apps instance.
