NEW QUESTION: 1 DRAG DROP A company has computers running Windows 7 Enterprise. All of the company's portable computers have been configured to use the Balanced power plan with the default plan settings. The battery power of one user's portable computer drains much faster than other similar model portable computers. You need to gather information from the user's portable computer to ascertain the cause of the battery power drain. Which two actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.) Select and Place: **Answer:** Explanation:

NEW QUESTION: 2 You are administering a SQL Server Analysis Services (SSAS) tabular database. You need to create a new role that allows its members to query data and to refresh data in the model. Which permission should you use? (More than one answer choice may achieve the goal. Select the BEST answer.) **A.** Browse and Manage **B.** Administrator **C.** Read and Process **D.** Explore and Manage **Answer: C** Explanation: * Giving a database role permission to process an Analysis Services database means that the role has permission to perform all processing options on the database. This includes the processing of all cubes, dimensions, mining structures, and mining models in the database. However, the role does not have permission to read database metadata or access any data in the database itself.

NEW QUESTION: 3 Which of the following should not be a policy in considering applicants for hire? **A.** Both A and C **B.** Similar problems in numerous areas, such as bad credit, absenteeism, numerous short-term jobs **C.** A problem in one area of interest should be enough to disqualify an applicant for hire **D.** If obviously overqualified, find out why applicant is willing to accept current job **E.** All of the above **Answer: C**

NEW QUESTION: 4 The project manager sent a draft project closure report to the project sponsor. The sponsor shared the document with a few stakeholders and received negative feedback on the deliverable's quality. What should the project manager do?
A. Ask the project sponsor to reset expectations with the stakeholders involved.
B. Supplement the appropriate sections in the project closure report on outstanding risks.
C. Revise the project closure report so that the decisions and actions causing the feedback are addressed.
D. Ask the project team to respond to the stakeholders' feedback
Answer: C
