NEW QUESTION: 1 Universal Containers ships millions of orders per year and releases code fixes to the production org mightily. Their corporate testing strategy requires that tests must be performed against Production data in an isolated test environment before code can be released to production. How can Universal Containers achieve the requirement? **A.** Request that Salesforce to schedule a full sandbox refresh on a nightly basis. **B.** Use Salesforce-to-Salesforce to keep data synchronized between production and full sandboxes. **C.** Create APEX unit tests so testing can be done against Production data, but rolled back before being committed. **D.** Utilize a middleware solution and batch API to do a nightly synch from production to Full sandbox.

Answer: D

NEW QUESTION: 2 DRAG DROP Your network contains an Active Directory domain named contoso.com. The domain contains two member servers named Server1 and Server2. All servers run Windows Server 2012. You generalize Server2. You install the Windows Deployment Services (WDS) server role on Server1. You need to capture an image of Server2 on Server1. Which three actions should you perform? To answer, move the three appropriate actions from the list of actions to the answer area and arrange them in the correct order. Select and Place: **Answer:** Explanation: Explanation: Box 1: Start Server2 by using PXE. Box 2: Add a capture image to Server1. Box 3: Add an install image to Server1. Note: * Capture images are Windows Preinstallation Environment (Windows PE) images that allow you to easily capture the install images that you prepare using Sysprep.exe. Instead of using complex command-line tools, once you have run Sysprep.exe on your reference computer, you can boot to the Windows Deployment Services client computer using PXE and select the capture image. When the capture image boots, it starts the Capture Image Wizard, which will guide you through the capture process and optionally upload the new install image to a Windows Deployment Services server. Steps/ create a capture image./ Create an install image./ Add the install image to the Windows Deployment Services server.
