**NEW QUESTION: 1** You are developing an application. The application calls a method that returns an array of integers named `employeeIds`. You define an integer variable named `employeeIdToRemove` and assign a value to it. You declare an array named `filteredEmployeeIds`. You have the following requirements: \* Remove duplicate integers from the `employeeIds` array. \* Sort the array in order from the highest value to the lowest value. \* Remove the integer value stored in the `employeeIdToRemove` variable from the `employeeIds` array. You need to create a LINQ query to meet the requirements. Which code segment should you use? **A.** Option **A** **B.** Option **B** **C.** Option **C** **D.** Option **D** **Answer: C** **Explanation:** Explanation: The `Distinct` keyword avoids duplicates, and `OrderByDescending` provides the proper ordering from highest to lowest.

**NEW QUESTION: 2** Which of the following statements are correct regarding recovery of the InnoDB tables after a server crash? Each correct answer represents a complete solution. Choose all that apply. **A.** The `innodb_force_recovery` option opens the InnoDB tables in the read-only mode. **B.** They are automatically recovered at the server startup. **C.** They are recovered only after restarting the server with the `innodb_force_recovery` option configured. **D.** They can only be recovered from the dump files. **Answer: A, B** **Explanation:** In the event of a crash, some InnoDB tables might need repairs. Simply restarting the server may repair the tables because the InnoDB storage engine performs auto-recovery as part of its startup sequence. In case auto-recovery does not work, you need to open the InnoDB tables in the read-only mode through the `innodb_force_recovery` option and dump the table to get it recovered by restarting the server normally and recovering tables from the dump file. Answer C is incorrect. Automatic recovery of the InnoDB table is performed as a part of its startup sequence. Answer A is incorrect. The InnoDB tables can be recovered automatically from the dump files, from the earlier backups.

**NEW QUESTION: 3** **A.** Option **A** **B.** Option **B** **C.** Option **C** **D.** Option **D** **Answer: C**
