**NEW QUESTION: 1** People living in the undeveloped wilderness area want jobs, and commercial development of the area will create jobs. But if the new commercial development plan is carried out, the wilderness will suffer. Thus the board considering the area's future must choose between the preservation of the wilderness and the wishes of the local people. The answer to which of the following questions would be LEAST relevant to evaluating whether the board indeed faces the choice the author says it faces? **A.** Can job be provided without commercial development of the wilderness area? **B.** Could commercial development be carried out under an alternative plan without damaging the wilderness? **C.** Would commercial development of the wilderness area significantly benefit people living elsewhere? **D.** Would the jobs created by the new development plan be filled by the local people? **E.** Do local people support or oppose commercial development of the wilderness area? **Answer: C** Explanation: Explanation/Reference: Explanation:

**NEW QUESTION: 2** Match each WatchGuard Subscription Service with its function. Uses full-system emulation analysis to identify characteristics and behavior of zero-day malware. (Choose one). **A.** Quarantine Server **B.** APT Blocker **C.** Application Control **D.** Spam Blocker **E.** Data Loss Prevention **DLPF.** WebBlocker **G.** Intrusion Prevention Server **IPSH.** Reputation Enable Defense **REDI.** Gateway / Antivirus **Answer: B** Explanation: Explanation/Reference: APT Blocker is intended to stop malware and zero-day threats that are trying to invade an organization's network. APT Blocker uses a next-gen sandbox to get detailed views into the execution of a malware program. After first running through other security services, files are fingerprinted and checked against an existing database - first on the appliance and then in the cloud. If the file has never been seen before, it is analyzed using the system emulator, which monitors the execution of all instructions. It can spot the evasion techniques that other sandboxes miss.
