**A.** The session cookies do not have the HttpOnly flag set. **B.** The victim user should not have an endpoint security solution. **C.** The victim's browser must have ActiveX technology enabled. **D.** The web application does not have the secure flag set.  
**Answer: A**

**NEW QUESTION: 3** You are the project manager for the GHB Organization. Management has asked that you review your recent SPI to determine why there was a schedule variance. They'd also like you to explain what approach you'll do to counteract the SPI going forward in the project. You complete the variance analysis and report to management that you'll be fast tracking a portion of your project work. What will be the management's concern with, when it comes to fast tracking the project?  
**A.** Added costs for the additional project labor **B.** Slippage in the project quality **C.** Added risk **D.** Continued variances in the SPI  
**Answer: C**  
**Explanation:** Explanation/Reference: Explanation: When the project manager elects to use fast tracking the project manager is allowing phases of the project to overlap. When phases overlap there is added risk to the project. Fast tracking is a technique for compressing project schedule. In fast tracking, phases are overlapped that would normally be done in sequence. It is shortening the project schedule without reducing the project scope. Incorrect Answers: A: Costs are added when the project manager elects to crash a project. C: Management's greatest concern is about the added risks of fast tracking and not about the SPI. D: Quality may suffer, but the most prominent concern is the added risks to the project work.
