NEW QUESTION: 1A. Option GB. Option EC. Option AD. Option BE. Option HF. Option CG. Option DH. Option F
Answer: D
Explanation:Deploying the application as a published application on the Remote Desktop server will use no disk space on the tablets. Users will be able to access the application by using Remote Desktop Connections. This will also ensure that the application is isolated from other applications on the tablets. We can use Remote Desktop Connection 'redirection' to ensure that the application is able to access files stored on an internal solid-state drive (SSD) on the tablets. Redirection enables access to local resources such as drives, printers etc. in a Remote Desktop Connection.

NEW QUESTION: 2An external quality assurance review which was authorized by the chief audit executive (CAE) indicated significant findings from the Standards. To whom should the final results of the quality assurance review be reported?
