To let the client be familiar with the atmosphere of the IIA-CHAL-QISA exam we provide the function to stimulate the exam and the timing function of our study materials to adjust your speed to answer the questions.

In addition, IIA-CHAL-QISA Online test engine supports all web browsers and Android and iOS etc, Success or 100% Money Back, Now that using our IIA-CHAL-QISA practice materials have become an irresistible trend, why don't you accept it with pleasure?

The IIA IIA-CHAL-QISA exam questions preparation products have been designed to provide ease to their customers in all aspects.

**NEW QUESTION: 1** Which of the following WAN technologies is MOST preferred when developing a VoIP system with 23 concurrent channels?  
**A.** DOCSIS **B.** T1 **C.** POTSD. DSL **Answer: D**

**NEW QUESTION: 2** Which component is required when deploying Music on Hold with recorded or live audio?  
**A.** Cisco MOH USB sound card **B.** Media Termination Point **C.** Conferencing resources **D.** Any sound card compatible with the MCS server **E.** Transcoder **Answer: A**  
Explanation: Explanation/Reference: Link : [http://www.cisco.com/en/US/docs/voice\\_ip\\_comm/cucm/srnd/8x/media.html](http://www.cisco.com/en/US/docs/voice_ip_comm/cucm/srnd/8x/media.html) Reference: Cisco Unified Communications System Release 8.x SRND , page- 797. Explanation : A Unified CM MoH server can generate a MoH stream from the following two types of sources:  
\* An audio file uploaded to the Unified CM MoH server  
\* A fixed (live) music source through a USB sound card

**NEW QUESTION: 3** Global data types defined in SAP systems are...  
**A.** ABAP Dictionary types. **B.** Data defined in the program that is visible to all the routines/statements '-' within the ABAP program. **C.** Date types defined in the program using ABAP Dictionary types. **Answer: A**

**NEW QUESTION: 4** You create an Azure subscription named Subscription1 and an associated Azure Active Directory (Azure AD) tenant named Tenant1. Tenant1 contains the users in the following table. You need to add an Azure AD Privileged Identity Management application to Tenant1. Which account can you use?  
**A.** [email#160;protected] **B.** [email#160;protected] **C.** [email#160;protected] **D.** [email#160;protected] **Answer: C**  
Explanation: Explanation For Azure AD roles in Privileged Identity Management, only a user who is in the Privileged role administrator or Global administrator role can manage assignments for other administrators. You can grant access to other administrators to manage Privileged Identity Management. Global Administrators, Security Administrators, Global readers, and Security Readers can also view assignments to Azure AD roles in Privileged Identity Management. Only owner can create an subscription and only global administrator can perform Privileged Identity Management changes. So you can create subscription with external user and then promote him to global administrator to get things done. As it is mentioned as it is associated with azure tenant so that tenant has an AD domain. So in azure AD the default domain ends with onmicrosoft.com. So you can't have Hotmail IDs there. Moreover always remember the principle of least privileges, when you can get your job done with Global Administrator then you should not look for owner

for security purpose. [email#160;protected] : Correct Choice As Admin1 is Global Administrator and part of default AD domain so Admin1 can add an Azure AD Privileged Identity Management application to Tenant1 [email#160;protected] : Incorrect Choice As per the above explanation Admin3 is not Global Administrator, so this option is incorrect. [email#160;protected] : Incorrect Choice As per the above explanation Admin2 is not Global Administrator, so this option is incorrect. [email#160;protected] : Incorrect Choice Although this user is Global Administrator but referring to the least privileges principal and default domain consideration this option is incorrect. References:
