## v4.6 Administrator Pass Success

Questions and Answers Format Photoexperienceacademy Study Guides, Dumps and Practice Questions comprise questions and answers format, Our C1000-168 prep +test bundle have given the clear answer.

We arrange the experts to check the update every day, if there is any update about the C1000-168 pdf vce, the latest information will be added into the C1000-168 exam dumps, and the useless questions will be remove of it to relief the stress for preparation.

Just give you a chance to success, IBM C1000-168 exam preparation Material by Photoexperienceacademy is the best source for the candidates for preparing the IBM C1000-168 IBM Cloud Pak for Data v4.6 Administrator Exam.

Everyone almost passed the test who bought the C1000-168 braindumps study materials from us.

**NEW QUESTION: 1**-- Exhibit --- Exhibit --Click the Exhibit button. ISP-A is advertising the 200.0.3.0/24 route to R1. R1 is advertising this BGP route to R2 but the route is hidden on R2. Referring to the exhibit, which statement is correct about the 200.0.3.0/24 route?**A.** The route is hidden because R2 has a more preferred route.**B.** The route is hidden because R1 is changing the next hop to 192.168.16.1.**C.** The route is unusable because it has not been verified.**D.** The route is unusable because the next hop is not reachable from R2.**Answer: D**

**NEW QUESTION: 2**After invoking an Enterprise Data Quality Job from ODI, where can you monitor the detailed progress of that Job?**A.** In Operator**B.** In Enterprise Data Quality**C.** In Enterprise Manager**D.** In ODI Console**Answer: D**

**NEW QUESTION: 3**In SAS Data Integration Studio, primary keys, foreign keys and unique keys can be specified/defined in which location?**A.** the Keys tab in the properties of a table metadata object**B.** the Keys tab in the properties for any transformation**C.** the Keys tab in the properties of a Table Loader transformation**D.** the Keys tab in the properties of a job metadata object  
**Answer: A**

**NEW QUESTION: 4**Which statement below is accurate about the concept of Object Reuse?**A.** Object reuse ensures that users do not obtain residual information from system resources.**B.** Object reuse protects against physical attacks on the storage medium.**C.** Object reuse applies to removable media only.**D.** Object reuse controls the granting of access rights to objects.  
**Answer: A**  
Explanation: Object reuse mechanisms ensure system resources are allocated and reassigned among authorized users in a way that prevents the leak of sensitive information, and ensure that the authorized user of the system does not obtain residual information from system resources. Object reuse is defined as The reassignment to some subject of a storage medium (e.g., page frame, disk sector, magnetic tape) that contained one or more objects. To be securely reassigned, no residual data can be available to the new subject through standard system mechanisms.<sup>7</sup> The object reuse requirement of the TCSEC is intended to assure that system resources, in particular storage media, are allocated and reassigned among system users in a manner which prevents the disclosure of sensitive information. Answer a is incorrect. Object reuse does not necessarily protect against physical attacks on the storage medium. Answer c is also incorrect, as object reuse applies to all primary and secondary storage media, such as removable media, fixed media, real and virtual main memory (including registers), and cache memory. Answer d refers to authorization, the granting of access rights to a user, program, or process. Source: NCSC-TG-018, A Guide To Understanding Object Reuse in Trusted Systems [Light Blue Book].
