700-245 actual test guide is your best choice, Now, you will clear your worries, The APP version of 700-245 practice test questions can be installed & downloaded on your phone.

NEW QUESTION: 1Due to a recent acquisition, the security team must find a way to secure several legacy applications. During a review of the applications, the following issues are documented: The applications are considered mission-critical. The applications are written in code languages not currently supported by the development staff. Security updates and patches will not be made available for the applications. Username and passwords do not meet corporate standards. The data contained within the applications includes both PII and PHI. The applications communicate using TLS 1.0. Only internal users access the applications. Which of the following should be utilized to reduce the risk associated with these applications and their current architecture? **A.** Update the company policies to reflect the current state of the applications so they are not out of compliance. **B.** Create a group policy to enforce password complexity and username requirements. **C.** Use network segmentation to isolate the applications and control access. **D.** Move the applications to virtual servers that meet the password and account standards. **Answer: D**

NEW QUESTION: 2 **A.** Option B **B.** Option A **C.** Option C **D.** Option D **Answer: B** Explanation: The shared folder should have NTFS and shared folder permissions that will allow the members of Group2 to edit the files. Thus you should edit the Share permissions accordingly.
