NEW QUESTION: 1 Which of the following pieces of legislation covers the employer's ability to monitor the electronic communications of employees?
A. MSHAB. **B.** FLSAC. **C.** OSHAD. **D.** ECPA
Answer: D
Explanation: Explanation: The ECPA, or Electronic Communications Privacy Act of 1986, governs an employer's ability to monitor the electronic communication of employees. FLSA is the Fair Labor Standards Act of 1938 that covers a number of employer requirements but does not refer specifically to employers monitoring employee electronic communications. (This is hardly surprising, as electronic communications would have been limited when the legislation was enacted.) OSHA, the Occupational Safety and Health Administration, is a department instead of a piece of legislation. (There is an OSHA Act, but it goes by this name, while OSHA is recognized specifically as the department.) MSHA refers to the Mine Safety and Health Act of 1977 that applies to mine workers.
