You are developing an application that applies a set of governance policies for Proseware's services, and applications. The application will also provide a shared library for common functionality. Policy service You develop and deploy a stateful ASP.NET Core 2.1 web application named Policy service to an Azure App Service Web App. The application reacts to events from Azure Event Grid and performs policy actions based on those events. The application must include the Event Grid Event ID field in all Application Insights telemetry. Policy service must use Application Insights to automatically scale with the number of policy actions that it is performing. Policies Log policy All Azure App Service Web Apps must write logs to Azure Blob storage. All log files should be saved to a named log drop. Logs must remain in the container for 15 days. Authentication events Authentication events are used to monitor users signing in and signing out. All authentication events must be processed by Policy service. Sign outs must be processed as quickly as possible. PolicyLib You have a shared library named PolicyLib that contains functionality common to all ASP.NET Core web services and applications. The PolicyLib library must: * Exclude non-user actions from Application Insights telemetry. * Provide methods that allow a web service to scale itself. * Ensure that scaling actions do not disrupt application usage. Other Anomaly detection service You have an anomaly detection service that analyzes log information for anomalies. It is implemented as an Azure Machine Learning model. The model is deployed as a web service. If an anomaly is detected, an Azure Function that emails administrators is called by using an HTTP WebHook. Health monitoring All web applications and services have health monitoring at the /health service endpoint. Issues Policy loss When you deploy Policy service, policies may not be applied if they were in the process of being applied during the deployment. Performance issue When under heavy load, the anomaly detection service undergoes slowdowns and rejects connections. Notification latency Users report that anomaly detection emails can sometimes arrive several minutes after an anomaly is detected.
