Our P_SAPEA_2023 learning materials not only provide you with information, but also for you to develop the most suitable for your learning schedule, this is tailor-made for you, according to the timetable to study and review.

NEW QUESTION: 1 Welche der folgenden Optionen stehen in der Budgetierung zur Verfügung? Es gibt 3 richtige Antworten auf diese Frage. **A.** Budgetfreigaben **B.** Budgetübertrag **C.** Budgetaktualisierungen **D.** Budgeterneuerung **Answer: A,B,C**

NEW QUESTION: 2 You have enabled "Full Log" as a tracking option to a security rule. However, you are still not seeing any data type information. What is the MOST likely reason? **A.** Logging has disk space issues. Change logging storage options on the logging server or Security Management Server properties and install database. **B.** Logs are arriving from Pre-R80 gateways. **C.** Identity Awareness is not enabled. **D.** Data Awareness is not enabled. **Answer: A**
Explanation: The most likely reason for the logs data to stop is the low disk space on the logging device, which can be the Management Server or the Gateway Server.

NEW QUESTION: 3 Which of the following phases of a system development life-cycle is most concerned with establishing a good security policy as the foundation for design? **A.** Initiation **B.** Development/acquisition **C.** Maintenance **D.** Implementation **Answer: A**
Explanation: A security policy is an important document to develop while designing an information system. The security policy begins with the organization's basic commitment to information security formulated as a general policy statement. The policy is then applied to all aspects of the system design or security solution. The policy identifies security goals (e.g., confidentiality, integrity, availability, accountability, and assurance) the system should support, and these goals guide

the procedures, standards and controls used in the IT security architecture design. The policy also should require definition of critical assets, the perceived threat, and security-related roles and responsibilities. Source: STONEBURNER, Gary & al, National Institute of Standards and Technology (NIST), NIST Special Publication 800-27, Engineering Principles for Information Technology Security (A Baseline for Achieving Security), June 2001 (page 6).

NEW QUESTION: 4 A large media site has multiple applications in Amazon ECS. A Solutions Architect needs to use content metadata and route traffic to specific services. What is the MOST efficient method to perform this task?
A. Use an AWS Application Load Balancer with host-based routing option to route traffic to the correct service.
B. Use Amazon CloudFront to manage and route traffic to the correct service.
C. Use an AWS Classic Load Balancer with a host-based routing option to route traffic to the correct service.
D. Use the AWS CLI to update Amazon Route 53 hosted zone to route traffic as services get updated.
Answer: C
