We designed MuleSoft-Platform-Architect-I free download study materials for the majority of candidates, You will be surprised by the high-effective of our MuleSoft-Platform-Architect-I study guide!

NEW QUESTION: 1The U.S. Uniform Computer Information Transactions Act (UCITA) is a:**A.** Model act that is intended to apply uniform legislation to electronic credit transactions**B.** Model act that addresses digital signatures**C.** Model act that is intended to apply uniform legislation to softwarelicensing**D.** Model act that addresses electronic transactions conducted by financial institutions**Answer: C****Explanation:**The National Commissioners on Uniform State Laws (NCUSL)voted to approve the Uniform Computers Information TransactionsAct (UCITA) on July 29, 1999. This legislation, which will have to beenacted state-by-state, will greatly affect libraries access to and use of software packages. It also will keep in place the current licensing practices of software vendors. At the present time, shrink-wrap orclick-wrap licenses limit rights that are normally granted undercopyright law. Under Section 109 of the U.S. 1976 Copyright Act, thefirst sale provision permits the owner of a particular copy withoutthe authority of the copyright owner, to sell or otherwise dispose ofthe possession of that copy. However, the software manufacturersuse the term license in their transactions. As opposed to the wordsale, the term license denotes that the software manufacturers arepermitting users to use a copy of their softwarE . Thus, the softwarevendor still owns the softwarE . Until each state enacts the legislation, it is not clear if shrink-wrap licenses that restrict users rights under copyright law are legally enforceable . For clarification, shrink-wrap licenses physically accompany a disk while click-on and active clickwrap licenses are usually transmitted electronically. Sometimes, the term shrink-wrap is interpreted to mean both physical and electroniclicenses to use softwarE . The focus of the UCITA legislation is not on the physical media, but on the information contained on the media.

NEW QUESTION: 2Your customer has asked you to recommend a data center storage design that includes Multihop FCoE for 400 database servers running on Cisco UCS C460M2 Rack Servers with Cisco UCS VIC 1225. Which of these server connectivity options is Cisco recommended for scalability and cost-effectiveness?**A.** Server > Cisco Nexus 3548 > Cisco Nexus 7018 > CISCO MDS 9500**B.** Server > Cisco Nexus 2232PP > Cisco Nexus 7018 > CISCO MDS 9500**C.** Server > Cisco Nexus 5548UP > Cisco Nexus 7018 > CISCO MDS 9500**D.** Server > Cisco Nexus 4001i > Cisco Nexus 7018 > CISCO MDS 9500**Answer: B**

NEW QUESTION: 3You have a Microsoft Exchange organization that uses an SMTP' address

space of contoso.com. Several users use their contoso.com email address for self-service sign up to Azure Active Directory (Azure AD). You gain global administrator privileges to the Azure AD tenant that contains the self-signed users. You need to prevent the users from creating user accounts in the contoso.com Azure AD tenant for self-service sign-up to Microsoft 365 services. Which PowerShell cmdlet should you run? **A. Set-MsolDomainFederationSettings** **B. Update-MsolFederatedDomain** **C. Set-MsolCompanySettings** **D. Set-MsolDomain** **Answer: C**
Explanation: <https://docs.microsoft.com/en-us/azure/active-directory/enterprise-users/directory-self-service-signup>
