NEW QUESTION: 1What is one of the benefits of using a federated repository over a user registry?**A.** Provides account and password policy support**B.** Supports only one registry in a realm**C.** Does not support identity profiles**D.** Supports multiple registries within a realm

Answer: DExplanation:Federated repositories enable you to use multiple repositories with WebSphere® Application Server. These repositories, which can be file-based repositories, LDAP repositories, or a sub-tree of an LDAP repository, are defined and theoretically combined under a single realm. All of the user repositories that are configured under the federated repository functionality are invisible to WebSphere Application Server.

NEW QUESTION: 2Your company is working with a partner to provide a solution for a customer. Both your company and the partner organization are using GCP.
