Our C_HCMOD_05 study materials will be your best learning partner and will accompany you through every day of the review, Get Real C_HCMOD_05 pdf questions and start your exam preparations.

NEW QUESTION: 1 Refer to the graphic. Users on the Holyoke router are unable to access the intranet server attached to interface E0 of the Chicopee router. Inspection of the routing table of the Holyoke router shows that an entry for the Chicopee E0 network is missing. Which command will configure the Holyoke router with a path to the intranet server network?
A. Holyoke(config)# ip host Chicopee 201.73.127.2
B. Holyoke(config)# ip network 202.18.38.0
C. Holyoke(config)# ip network 202.18.18.0 255.255.255.0
D. Holyoke(config)# ip host Chicopee 201.73.127.0 255.255.255.0
E. Holyoke(config)# ip route 201.73.127.2 255.255.255.0 202.18.18.0
F. Holyoke(config)# ip route 202.18.18.0 255.255.255.0 201.73.127.2
Answer: F

NEW QUESTION: 2 A customer has 30 client computers. All of the client computers have an OEM version of Windows 7 installed. On one of the client computer's, the customer upgrades the motherboard to a new motherboard that has a faster chipset. You need to recommend a solution to ensure that the client computer is legally licensed. The solution must minimize licensing costs. What should you recommend?
A. Purchase an Upgrade license of Windows 7 from a retail store.
B. Purchase a Full Packaged Product (FPP) version of Windows 7.
C. Request a new product key from the Microsoft Activation Center.
D. Obtain a new OEM license of Windows 7 from the hardware vendor.
Answer: B

NEW QUESTION: 3 You have a Dynamics CRM organization that contains two business units named Sales and Marketing. You need to create a team to which you can assign security roles and that can contain users from the Sales business unit. What are two possible ways to achieve the goal? Each correct answer presents a complete solution.
A. Create an owner team that belongs to the Sales business unit.
B. Create an access team that belongs to the root business unit.
C. Create an access team that belongs to the Sales business unit.
D. Create an owner team that belongs to the root business unit.
Answer: A, D
Explanation: Explanation/Reference: An owner team owns records and has security roles assigned to the team. The team's privileges are defined by these security roles. In addition to privileges provided by the team, team members have the privileges defined by their individual security roles and by the roles from other teams in which they are members. A team has full access rights on the records that the team owns. Incorrect Answers: B, C: An access team doesn't own records and doesn't have security roles assigned to the team. The team members have privileges defined by their individual security roles and by roles from the teams in which they are members. The records are shared with an access team and the team is granted access rights on the records, such as

NEW QUESTION: 4A. Option DB. Option AC. Option CD. Option B
Answer: D
Explanation: A Virtual Private Cloud (VPC) is a virtual network dedicated to the user's AWS account. It enables the user to launch AWS resources into a virtual network that the user has defined. With VPC the user can specify multiple private IP addresses for his instances. The number of network interfaces and private IP addresses that a user can specify for an instance depends on the instance type. With each network interface the organization can assign an EIP. This scenario helps when the user wants to host multiple websites on a single EC2 instance by using multiple SSL certificates on a single server and associating each certificate with a specific EIP address. It also helps in scenarios for operating network appliances, such as firewalls or load balancers that have multiple private IP addresses for each network interface.
