NEW QUESTION: 1 Under the AWS shared responsibility model, customers are responsible for which aspects of security in the cloud? (Choose two.)
A. Hardware management
B. Encryption management
C. Facilities management
D. Visualization management
E. Firewall management
Answer: B, E
Explanation: Explanation With the basic Cloud infrastructure secured and maintained by AWS, the responsibility for what goes into the cloud falls on you. This covers both client and server side encryption and network traffic protection, security of the operating system, network, and firewall configuration, followed by application security and identity and access management. Firewall configuration remains the responsibility of the end user, which integrates at the platform and application management level. For example, RDS utilizes security groups, which you would be responsible for configuring and implementing. Reference: <https://cloudacademy.com/blog/aws-shared-responsibility-model-security/>
