We promise you can pass your D-VPX-DY-A-24 actual test at first time with our EMC free download pdf, Our PDFs are easy to read and can print to any desktop printer.

If you have any opinion about the answers of D-VPX-DY-A-24 exam, you can also send them to us, I think you will clear all your problems in the D-VPX-DY-A-24 reliable prep dumps.

They believe and rely on us, If you have any questions about purchasing D-VPX-DY-A-24 exam software, you can contact with our online support who will give you 24h online service.

**NEW QUESTION: 1** A user has received a message from the support team that an issue occurred 1 week back between 3 AM to 4 AM and the EC2 server was not reachable. The user is checking the CloudWatch metrics of that instance. How can the user find the data easily using the CloudWatch console?  
**A.** It is not possible to find the exact time from the console. The user has to use CLI to provide the specific time  
**B.** The user can find the data by giving the exact values in the time Tab under CloudWatch metrics  
**C.** The user can find the data by filtering values of the last 1 week for a 1 hour period in the Relative tab under CloudWatch metrics  
**D.** The user can find the data by giving the exact values in the Absolute tab under CloudWatch metrics  
**Answer: D**  
**Explanation:** If the user is viewing the data inside the CloudWatch console, the console provides options to filter values either using the relative period, such as days /hours or using the Absolute tab where the user can provide data with a specific date and time. The console also provides the option to search using the local timezone under the time range caption in the console.

**NEW QUESTION: 2** Which of the following description about the group management for VGMP is wrong?  
**A.** master/slave devices exchange packets to understand each other through the heartbeat line, and backup the related commands and status information  
**B.** Periodically sends Hello packets between VGMP of master/slave firewall  
**C.** The interface type and number of two firewalls heartbeat port may be different, as long as they can communicate with each other  
**D.** Master/slave status change of VRRP backup group needs to notify its VGMP management group  
**Answer: C**

**NEW QUESTION: 3** You plan to acquire a secure connection between a data center and Azure for disaster recovery purposes. The company anticipates moving more than 5 terabytes (TB) of data during each failover instance. You have the following requirements:  
\* You must be able to monitor connection throughput and all network traffic.  
\* You must minimize the time it takes to transfer data after a failover.  
You need to recommend the correct configuration. What should you recommend? To answer, select the appropriate connection and routing gateway from the lists on the answer area.  
**Answer:** Explanation: Explanation
