Besides, the APP online can be applied to all kind of electronic devices.

NEW QUESTION: 1 A critical server was replaced by the IT staff the previous night. The following morning, some users are reporting that they are unable to browse to the Internet upon booting their workstations. Users who did not shut down their workstations the previous day are able to connect to the Internet. A technician looks at the following report from a workstation with no Internet connectivity: IP Address: 192.168.1.101 Netmask: 255.255.255.0 DHCP Server: 192.168.1.1 DNS Server: 192.168.1.2 Default Gateway: 192.168.1.1 Given the above report, which of the following is the cause of why some workstations are unable to browse the Internet? **A.** The DHCP server is unavailable. **B.** The DHCP server is misconfigured. **C.** The default gateway router is misconfigured. **D.** The workstation has an APIPA address. **Answer: B**

NEW QUESTION: 2 Sie müssen eine Identifizierungslösung empfehlen, die den technischen Anforderungen entspricht. Was solltest du empfehlen? **A.** Nur-Cloud-Benutzerkonten **B.** Verbund-Single-On- (SSO) und Active Directory-Verbunddienste (AD FS) **C.** Pass-Through-Authentifizierung und Single Sign-On (SSO) **D.** Passwort-Hash-Synchronisation und Single Sign-On (SSO) **Answer: B** Explanation: Active Directory Federation Services is a feature and web service in the Windows Server Operating System that allows sharing of identity information outside a company's network. Scenario: Technical Requirements include: Prevent user passwords or hashes of passwords from being stored in Azure. References: <https://www.sherweb.com/blog/active-directory-federation-services/Topic 3, Lab 1> SIMULATION The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design. Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task. Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please, note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. To start the lab You may start lab by clicking the Next button Tasks Click to expand each objective To connect to the Azure portal, type <https://portal.azure.com> in the browser address bar. Instructions Performance Based Lab This type of question asks you to perform tasks in a virtual environment. The screen for this type of question includes a virtual machine window and a tasks pane. The window is a remotely connected live environment where you perform tasks on real software and applications. On the

right is a Tasks pane that lists the tasks you need to perform in the lab. Each task can be expanded or collapsed using the "+" or "-" symbols. A checkbox is provided for each task. This is provided for convenience, so you can mark each task as you complete it. TasksClick to expand each objective-Configure serversAdd the "Print and Document Services" role to server LON-SVR1, installing any required management features and enabling both Print and LPD Services.+Configure file and share accessWhen you are finished performing all the tasks, click the 'Next' button.Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam.CommentsOnce the exam completes, the comment period will begin and you will have the opportunity to provide comments to Microsoft about the exam questions. To launch the comment period, click the "Finish" and then "Comment" buttons. To skip the comment period and the exam, click Exit. You can navigate to a question from the Review screen to provide a comment. Please, see the Review Screen tab in the Review Screen help Menu (which can be accessed from the Review Screen) for details on accessing questions from the Review Screen.To comment on a question, navigate to that question and click the Give Feedback icon. When you have entered your comment in the comment window, click Submit to close the window. To navigate to the Review screen again, click the Review button. You may navigate through all questions using the Next and Previous buttons. To skip commenting, go to the Review Screen by selecting the Review Screen button in the upper left-hand corner and from the Review Screen, select "Finished". Controls AvailableFor any question, one or more of the following controls might be available. Keyboard Shortcuts AvailableExam features may be accessed using keyboard shortcuts. The following table describes the keyboard shortcuts that are available during this exam.Some keyboard shortcuts require that you press two or more keys at the same time. These keys are separated by a plus sign (+) in the table below.

NEW QUESTION: 3A. Option CB. Option BC. Option DD. Option AAnswer: AExplanation:Since the port is in the blocked status, we must assume that there is a shorter path to the root bridge elsewhere.

NEW QUESTION: 4Your company has recently deployed a new web application that uses Oracle functions Your manager Instructed you to Implement major manage your systems more effectively. You know that Oracle functions automatically monitors functions on your behalf reports metrics through Service Metrics.Which two metrics are collected and made available by this feature?**A. number of times a function is invokedB. amount of CPU used by a functionC. number of concurrent connectionsD. number of times a function is removedE. length of time a function runsAnswer: A,E**Explanation:

<https://docs.cloud.oracle.com/en-us/iaas/Content/Functions/Reference/functionsmetrics.htm> you can monitor the health, capacity, and performance of functions you've deployed to Oracle Functions by using metrics Oracle Functions monitors function execution, and collects and reports metrics such as:The number of times a function is invoked.The length of time a function runs for.The number of times a function failed.The number of requests to invoke a function that returned a '429 Too Many Requests' error in the response (known as 'throttled function invocations').
